MEMORANDUM FOR: Chief, Analysis/ORD

ATTENTION :

SUBJECT : Key Word Recognition Program

1. A review of your work in the area of key word recognition shows a remarkable record of achievement of which your office may be quite proud. The results which have been achieved to date appeared quite unlikely only a year ago, and TSD has been following this progress with extreme interest. Both the short and long range objectives of your program are extremely important and are pertinent to some basic problems facing the Clandestine Services. What is even more important, however, the direction your office is giving to the work shows a real understanding of the practical and philosophical sides to the problem.

2. We strongly urge that your office continue this valuable work, and hope that you continue directing it as in the past; the potential advancement that this work appears to offer to our operational capability would be significant.

Acting Chief
Technical Services Division
